CONFIGURATION PAGE PARAMETERS

Par. 01  OFF
In order to restore the settings to the factory default, this parameter should be set to "OFF" and "" key should be pressed for two
Setting Preferences: OFF, ON

Par. 02  1
It determines the decimal level (number of digits after dot) of all parameters which have a unit of "EU".
Setting Range : 0 - 3

Warning: When this parameter has been changed, all parameters which have a unit of "EU" should be set again.

Note: "EU", which is determined by "HU" parameter is a temperature unit for thermocouple or resistance thermometer measurements. Otherwise, it is an engineering unit that
